DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 2,570,833 to Metcalf et al.

Metcalf, in figure 3, shows a chain block comprising: a drive motor 16 and a transmission connected to the drive motor at a take-off side of the motor; a chain wheel 17 rigidly arranged on an output shaft 52 of the transmission, the chain wheel for pulling a chain; wherein the chain wheel faces 17 the drive motor 16 at an end face of the takeoff and an outer circumference of the chain wheel reaching into an imaginary extension of an outer contour of the drive motor 16; the outer circumference of the chain wheel reaches for at least a quarter of the diameter of the chain wheel into the imaginary extension of the outer contour of the drive motor; the motor shaft 45 is parallel to the transmission output shaft 52.

Allowable Subject Matter

Claims 3, 4, 6-9 and 13-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
